# A big British catalogue with 2000 twice-size coin photos

*"A great book" says Professor Sir Barry Cunliffe*

Never before have so many Ancient British coins been so easy to identify, so easy to study, so easy to enjoy. ABC catalogues 999 iron age coins, including 418 new types not shown by Van Arsdell in 1989. ABC describes and dates them, gives up to six references for each, estimates their rarity and shows every coin twice actual size, so that its distinctive differences can be seen at a glance. ABC took ten years to produce, has 256 fact-packed pages and contains 4000 superb coin photos, plus 500 other illustrations, diagrams, tables and maps.

ABC 2012

*Every coin in ABC has its own name and is shown twice size, like this Cotswold Cock silver unit of the Dobunni. "Superb illustrations" says Robert Van Arsdell.*

ABC is a picture book, not a lecture book. "ABC is a remarkable achievement" says Prof. Miranda Aldhouse-Green. "It manages to combine scholarship and accessible information in a volume whose every page is interesting and whose writing style makes it fun to use." ABC is a large hardback book (30 x 20 cm), light in style, heavy in weight (1.5 kgs) - "an indispensable aid to anyone wanting to identify British iron age coins" says Prof. Colin Haselgrove - worth every penny of its £75 plus postage. *ABC reviews and revises tribal groups that issued coins, introduces new groups, identifies main centres and suggests mint sites.*

*ABC reveals intriguing insights into 70 rulers, some previously unknown. Gold stater of Tasciovanos 'killer of badgers' seen here in chain-mail armour.*
