For clarity and convenience all original catalogue entries are greatly enlarged, with sale details and prices realised (ex buyer's premium). £5,0000 is still a world record price for a Celtic silver minim, especially one with no inscription.

## 287 great British Celtic coins all with prices realised

*The John Follows Collection of British Celtic Coins* is a big new hardback full of fresh information and expert insights you won't find in any other book. It catalogues one of the finest private collections of British Iron Age coins, especially gold, since those of Evans (1823-1908), Lockett (1873-1950) and Mack (1901-74). Mostly bought direct from metdets. All with large colour photos, all with recent prices realised (2020-2025). 'A beautiful book, almost a guide to ancient British coinage in itself, with many examples and variants not in any of the standard books' (DR DAPHNE NASH BRIGGS, author of *Coinage in the Celtic World*). 'Beautifully written and stunningly illustrated' (DAVID R SEAR, author of *Roman Coins and their Values*). 'Each coin is beautifully presented...expert technical information...an enjoyable read and an invaluable resource' (DR DAVID ROBINSON, author of *Durotrigan Quarter Staters*). 'An important reference book, lavishly illustrated and detailed...an outstanding and exceptional work' (JULIAN EVAN HART, editor of *Treasure Hunting* magazine). ISBN 978-0-9566889-7-2, A4 hardback, 30x21cm, 155pp, 600 enlarged coin images. £50 + p&p. Order from [sandra@celticcoins.com](mailto:sandra@celticcoins.com) tel: 01263 735 707.

Like Commander R P Mack, another great collector of British Celtic coins and author of *The Coinage of Ancient Britain* (1953), John Follows, left, also served in the Royal Navy.
